SECRETARY, BOARD OF
OIL, GAS & MINING

**BEFORE THE BOARD OF OIL, GAS AND MINING
DEPARTMENT OF NATURAL RESOURCES
STATE OF UTAH**

IN THE MATTER OF THE REQUEST FOR AGENCY ACTION OF NEWFIELD PRODUCTION COMPANY FOR AN ORDER: (1) PARTIALLY VACATING THE BOARD'S ORDERS ENTERED IN CAUSE NOS. 139-90, 139-98, 139-103 AND 139-123; AND (2) VACATING THE BOARD'S ORDERS ENTERED IN CAUSE NOS. 131-51, 139-109, 139-110, 139-113, 139-117, 139-120 AND 139-129, AND INSTEAD ESTABLISHING STAND-UP (VERTICAL) 1280-ACRE (OR SUBSTANTIAL EQUIVALENT) DRILLING UNITS FOR THE PRODUCTION OF OIL, GAS AND ASSOCIATED HYDROCARBONS FROM THE LOWER GREEN RIVER-WASATCH FORMATIONS WITHIN TOWNSHIPS 3 SOUTH, RANGES 1 AND 2 WEST, AND THE E½ OF TOWNSHIP 3 SOUTH, RANGE 3 WEST, USM, DUCHESNE AND UINTAH COUNTIES, UTAH.

**FINDINGS OF FACT,
CONCLUSIONS OF LAW AND
ORDER**

Docket No. 2015-020

Cause No. 139-134

This Cause came on for hearing before the Utah Board of Oil, Gas and Mining (the "Board") on Wednesday, June 24, 2015, at approximately 1:00 p.m., in the Auditorium of the Utah Department of Natural Resources Building in Salt Lake City, Utah. The following Board members were present and participated at the hearing: Chairman Ruland J. Gill, Jr., Susan S. Davis, Gordon L. Moon, Carl F. Kendell, Chris D. Hansen, and Richard K. Borden. Board member Michael R. Brown initially was present, but had to be excused before the hearing concluded and therefore did not participate in deliberations or the decision. At the commencement of the hearing, Chairman Gill stated he owned a minute

leased oil and gas interest within the area at issue and offered to recuse himself if there were any objections, but no objections were voiced and he participated accordingly. The Board was represented by Michael S. Johnson, Esq., Assistant Attorney General.

Testifying on behalf of Petitioner Newfield Production Company (“Newfield”) were Roxann Eveland - Land Lead, Mike Jensen - Engineering Advisor, Zac Gonsior - Staff Geologist and Sarah Fenton - Staff Reservoir Engineer. The Board recognized Ms. Eveland as an expert in petroleum land management, Mr. Jensen and Ms. Fenton as experts in petroleum engineering and Mr. Gonsior as an expert in geology for purposes of this Cause. Frederick M. MacDonald, Esq., of and for MacDonald & Miller Mineral Legal Services, PLLC, appeared as attorney for Newfield.

The Division of Oil, Gas and Mining (the “Division”) did not file a staff memorandum in this Cause but participated in the hearing. John Rogers, Associate Director - Oil & Gas, made a statement, and Dustin Doucet, Petroleum Engineer, testified and, with the Board’s permission, was allowed to ask questions, on behalf of the Division. Steven F. Alder, Esq., Assistant Attorney General, appeared as attorney for the Division. At the conclusion of the Division’s presentation, Mr. Rogers stated the Division supported the granting of Newfield’s Request for Agency Action filed on May 11, 2015 in this Cause (the “Request”), as conformed to the testimony and other evidence provided at the hearing.

Three “comment” letters were received by the Board relating to the Request. The first letter was received on June 8, 2015 from Evelyn Austin and Victor Wayne Bott, Jr. in which they incorrectly presumed the Request involved compulsory pooling of their interests and upon which they objected. In addition to the fact the Request does not seek compulsory pooling, from the Letter itself, it appears the Botts own interests in lands outside of the area at issue and received notice only due to Newfield’s requested reduction of setbacks, an issue which the Letter does not address. The second letter was received on June 10, 2015 from Julie Robinson on behalf of Evans Oil & Gas LLC (“Evans”) outlining its concern that it was not provided enough information to determine the impact of the Request upon its mineral interest. In a subsequent e-mail to the Board, Evans acknowledged it had been in contact with Newfield and received sufficient information and explanation to resolve its questions and concerns. The third letter was received on June 23, 2015 from Crescent Point Energy U.S. Corp, (“Crescent Point”), a working interest owner in the area at issue, indicating its support of the granting of the Request. None of these parties appeared and participated at the hearing.

No other party filed a response to the Request and no other party appeared or participated at the hearing.

The Board, having considered the testimony presented and exhibits received into evidence at the hearing, being fully advised, and for good cause, hereby makes the following findings of fact, conclusions of law and order in this Cause.

FINDINGS OF FACT

1. Newfield is a Texas corporation with its principal place of business for Rocky Mountain operations, at the time of the hearing, in Denver, Colorado. Newfield is duly qualified to conduct business in the State of Utah, and is fully and appropriately bonded with all relevant Federal, Indian and State of Utah agencies.

2. Pursuant to the Board's Order entered on October 27, 1983 in Cause No. 131-51 (the "131-51 Order"), the Board established sectional (640-acre or substantial equivalent) drilling units for the production of oil, gas and associated hydrocarbons from the Lower Green River-Wasatch transitional formations, defined in said Order as follows:

that interval below the stratigraphic equivalent of 9,600 feet depth in the "E" Log of the Carter #2 Bluebell well located in the SW $\frac{1}{4}$ NW $\frac{1}{4}$, Section 3, Township 1 South, Range 2 West, U.S.M. (which equivalence is the depth 9,530 feet of the SP curve, Dual Induction Log, run March 15, 1968, in the Chevron #1 Blanchard well located in the NW $\frac{1}{4}$ SE $\frac{1}{4}$ of said [Section 3]), to the base of the Green River-Wasatch formations

for the following lands:

Township 3 South, Range 1 West, USM

Sections 4-9 and 16-18 inclusive

Township 3 South, Range 2 West, USM

Sections 1-3 and 10-15 inclusive

(the “131-51 Lands”). Under the original 131-51 Order, only one well may produce on each such unit so established, which must be located no closer than 1,320 feet from the exterior boundary of any governmental section; provided, that an exception to said 1,320-foot limitation may be granted administratively without a hearing where a topographical exception is deemed necessary.

3. Pursuant to the Board’s Order entered May 9, 2012 in Cause No. 139-90 (the “139-90 Order”), the Board first established sectional (640-acre or substantial equivalent) drilling units for the production of oil, gas and associated hydrocarbons from the Lower Green River-Wasatch transitional formations, instead defined in said Order as follows:

the interval from the top of the Lower Green River formation (TGR₃ marker) to the base of the Green River-Wasatch formations (top of Cretaceous), which base is defined as the stratigraphic equivalent of the Dual Induction Log depths of 16,720 feet in the Shell-Ute 1-18B5 well located in the S¹/₂NE¹/₄ of Section 18, Township 2 South, Range 5 West, U.S.M., and 16,970 feet in the Shell-Brotherson 1-11B4 well located in the S¹/₂NE¹/₄ of Section 11, Township 2 South, Range 4 West, U.S.M.

(the “Subject Formations”), for the following lands:

Township 3 South, Range 1 West, USM

Sections 1-3, 10-15 and 19-36 inclusive

Township 3 South, Range 2 West, USM

Sections 4-9, 16-33 and 36 inclusive

Township 3 South, Range 3 West, USM

Sections 1-3, 10-15, 22-27 and 34-36 inclusive

(the “139-90 Lands”), among other lands, and second modified the 131-51 Order and additionally authorized, as applicable to both the 131-51 and 139-90 Lands, up to four producing Subject Formations wells, whether all vertical, all (short lateral) horizontal, or a combination of both, upon the drilling units, to be drilled at the option of the operator and with the operator’s full discretion as to the development of the hydrocarbon reserves, provided each well shall not be closer than 1,320 feet from an existing unit well completed in and producing from the formation and no closer than 660 feet from the drilling unit boundary. The Board also expressly eliminated any first well siting requirements.

4. The following lands have not yet been the subject of a Board order and have remained subject only to the general well siting rule (Utah Admin. Code Rule R649-3-2).

Township 3 South, Range 2 West, USM

Sections 34 and 35

(the “Unspaced Lands”).

5. The 131-51, 139-90 and Unspaced Lands are hereinafter collectively referred to as the “Subject Lands.”

6. Pursuant to the 139-90 Order, Newfield and Crescent Point drilled and continue to produce from the Subject Formations the following vertical (“VT”) and short lateral horizontal (“HZ”) wells located on the Subject Lands:

<u>Well Type</u>	<u>Count</u>
Wasatch VT Total	40
<u>with perforations as follows:</u>	
between Lower Black Shales (“LBSH”) and Redbeds	38
above LBSH	7
below Redbeds	13
Wasatch HZ Total	3
Uteland Butte HZ Total	<u>16</u>
Total 640-acre DSU wells	59

7. Pursuant to the Board’s Order entered on November 26, 2013 in Cause No. 139-109 (the “139-109 Order”), the Board modified the 139-90 Order as relating to Section 17 of T3S, R2W, and Section 23 of T3S, R3W, USM, to authorize the drilling, on a pilot basis, of up to eight vertical or directionally drilled wells upon the respective sectional drilling unit, provided no producing interval of a well so authorized may be located closer than 660 feet to a sectional boundary or to another well producing from the Subject Formations. The Board required that, within 13 months after entry of the Order (by December 26, 2014), Newfield report back to the Board with any available information concerning the success or failure of the pilot program. Pursuant to the Board’s Order

entered on November 12, 2014 in Cause No. 139-123 (the “139-123 Order”), the Board partially vacated the 139-109 Order as pertaining to Section 23. No additional vertical or directionally drilled wells beyond the four originally authorized under the 139-90 Order have ever been drilled on either said Sections 17 or 23.

8. Commencing in late 2012 and continuing through 2015, Newfield petitioned the Board, and the Board granted, several pilot programs to test the viability of long lateral horizontal wells (“SXL Wells”) in three different productive intervals of the Subject Formations, thereby modifying the 131-51, 130-90 and 139-109 Orders to conform therewith. These are addressed as follows:

a) **Uteland Butte Interval.**

(i) **139-98 Order.** Pursuant to the Board’s Order entered on December 14, 2012 in Cause No. 139-98 (the “139-98 Order”), the Board authorized, on a pilot basis, the establishment of 1280-acre (or substantial equivalent) special drilling units for the production of oil, gas and associated hydrocarbons from the Uteland Butte Interval of the Subject Formations defined as follows:

the stratigraphic equivalent of the interval from 9,140 feet to 9,292 feet MD as identified on the Dual Laterolog run on February 22, 2012 for the Gilbert 9-9-3-3W Well, located in the NE $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 9, Township 3 South, Range 3 West, USM,

(the “UB Definition”), comprised of Sections 4 and 9, and Sections 15 and 22, T3S, R2W, USM, respectively, among other lands, and the drilling of up to four (4) SXL Wells upon

each said special drilling unit. No producing interval of an authorized well could be located closer than 330 feet to the north or south boundary, and no closer than 660 feet to the east or west boundary, of the special drilling unit, and no closer than 660 feet to another SXL Well within the special drilling unit, without an exception location approval. In addition, no vertical well or HZ Well could produce from the Uteland Butte member without prior Board authorization. Newfield was required to report back to the Board on the results of the Pilot within two years of the date of entry of the Order (by December 14, 2014).

The following SXL Wells were drilled on the Subject Lands and continue to produce in accordance with the 139-98 Order:

<u>Well</u>	<u>Location (Producing Lateral)</u>	<u>Date of First Production</u>
Jorgensen 2-4-9-3-2WH	Sections 4 and 9 of T3S, R2W	3/29/2014
Ute Tribal 13-9-4-3-2WH	Sections 4 and 9 of T3S, R2W	9/2/2014
Ute Tribal 14-9-4-3-2WH	Sections 4 and 9 of T3S, R2W	9/9/2014
Close 4-15-22-3-2WH	Sections 15 and 22 of T3S, R2W	11/30/2013
Aubrey 1A-15-22-3-2WH	Sections 15 and 22 of T3S, R2W	7/25/2014
Lucy 2-15-22-3-2WH	Sections 15 and 22 of T3S, R2W	3/20/2015
Lucy 3-15-22-3-2WH	Sections 15 and 22 of T3S, R2W	3/20/2015

In accordance with the 139-98 Order, the Pilot Results were provided to the Board on December 15, 2014 under claim of confidentiality pursuant to the Utah Governmental Records Access and Management Act (“GRAMA”).

(ii) **139-113 Order**. Pursuant to the Board’s Order entered on December 19, 2013 in Cause No. 139-113 (the “139-113 Order”), the Board expanded the Uteland Butte

pilot program established under the 139-98 Order by establishing additional 1280-acre (or substantial equivalent) special drilling units for the production of oil, gas and associated hydrocarbons from the Uteland Butte Interval (defined with the UB Definition), comprised of Sections 17 and 20, T3S, R1W, Sections 2 and 11, Sections 3 and 10, Sections 6 and 7, Sections 14 and 23, and Sections 16 and 21, T3S, R2W and Sections 14 and 23, T3S, R3W, USM, respectively, and authorized the drilling of up to six or seven SXL Wells upon each such special drilling unit depending on whether there was an existing HZ Well thereon. No producing interval of an authorized well could be located closer than 330 feet to the north or south boundary, and no closer than 660 feet to the east or west boundary, of the special drilling unit, and no closer than 560 feet to another HZ or SXL Well within the special drilling unit, without an exception location approval. In addition, no vertical well or additional HZ Well could produce from the Uteland Butte Interval without prior Board authorization. Newfield was required to report back to the Board on the results of the Pilot within one year from the date of entry of the Order (by December 19, 2014).

The following SXL Wells were drilled on the Subject Lands and continue to produce in accordance with the 139-113 Order:

<u>Well</u>	<u>Location (Producing Laterals)</u>	<u>Date of First Production</u>
Andre 14-7-6-3-2WH	Sections 6 and 7 of T3S, R2W	4/23/2015
Andre 15-7-6-3-2WH	Sections 6 and 7 of T3S, R2W	4/23/2015
Ranch 16-10-3-3-2WH	Sections 3 and 10 of T3S, R2W	6/27/2014
Dart 13-11-2-3-2WH	Sections 2 and 11 of T3S, R2W	4/2/2015

In accordance with the 139-113 Order, the Pilot Results were provided to the Board on December 15, 2014 under claim of confidentiality pursuant to GRAMA.

b) Upper Wasatch Interval.

(i) 139-103 Order as Modified. Pursuant to the Board's Order entered on May 9, 2013 in Cause No. 139-103 (the "139-103 Order"), the Board authorized, on a pilot basis, the establishment of 1280-acre (or substantial equivalent) special drilling units for the production of oil, gas and associated hydrocarbons from the Upper Wasatch interval of the Subject Formations, defined as follows:

the base of the Uteland Butte Member of the Lower Green River formation to the top of the Wasatch Red Beds, being the stratigraphic equivalent of the interval from 8,765 feet to 9,967 feet MD as identified in the Dual Induction Log run on March 7, 1972 in the JW Accawinna # 1 Well located in the NE $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 13, T3S, R3W, USM,

(the "UW Definition"), comprised of Sections 15 and 22, T3S, R2W, USM, among other lands, and authorized the drilling of one SXL Well thereon, the productive intervals of which could be no closer than 660 feet from a drilling unit boundary without an exception location approval. In addition, no vertical well or HZ Well could produce from the Upper Wasatch Interval without prior Board authorization. Newfield was required to report back to the Board on the results of the Pilot within two years of the date of entry of the Order (by May 9, 2015). Pursuant to the Board's Order entered on June 13, 2014 in Cause No. 139-117 (the "139-117 Order"), the 139-103 Order was modified to allow up to eight SXL

Wells, provided the authorized wells could be located no closer than 660 feet laterally when closer than 200 feet vertically to another SXL within the same special drilling unit, and, as to stacked laterals, with no inter-well distance laterally required provided the stacked laterals are located at least 200 feet or greater apart in vertical distance. In addition, Newfield was required to report back to the Board on the results of the Pilot within one year of the date of entry of the Order (June 13, 2015). Finally, pursuant to the Board's Order entered on April 2, 2015 in Cause No. 139-129 (the "139-129 Order"), the 139-103 and 139-117 Orders were modified to reduce the north and south special drilling unit boundary setbacks from 660 feet to 330 feet.

The following SXL Wells were drilled on the Subject Lands and continue to produce in accordance with the 139-103 Order as modified by the 139-117 and 139-129 Orders:

<u>Well</u>	<u>Location (Producing Lateral)</u>	<u>Date of First Production</u>
Aubrey 2-15-22-3-2WH	Sections 15 and 22 of T3S, R2W	1/28/2014
Accawinna 13-22-15-3-2W-MW	Sections 15 and 22 of T3S, R2W	10/12/2014

The exhibits and testimony received into evidence in this Cause are deemed to satisfy the Pilot result reports required under the 139-103 and 139-117 Orders.

(ii) **139-110 Order as Modified.** Pursuant to the Board's Order entered on November 26, 2013 in Cause No. 139-110 (the "139-110 Order"), the Board expanded the Upper Wasatch pilot program established under the 139-103 Order by establishing additional 1280-acre (or substantial equivalent) special drilling units for the production of

oil, gas and associated hydrocarbons from the Upper Wasatch Interval (defined with the UW Definition), comprised of Sections 3 and 10, T3S, R2W, and Sections 3 and 10, and Sections 15 and 22, T3S, R3W, USM, respectively, and authorized the drilling of up to four SXL Wells thereon, the productive intervals of which could be no closer than 660 feet from a drilling unit boundary or laterally to another well in the special drilling unit, or 200 feet vertically to another stacked lateral within the special drilling unit. In addition, no vertical well or HZ Well could produce from the Upper Wasatch Interval without prior Board authorization. Newfield was required to report back to the Board on the results of the Pilot within 13 months of the date of entry of the Order (by December 26, 2014). The 139-110 Order was similarly modified by the 139-117 and 139-129 Orders as outlined under (i) above.

The following SXL Wells were drilled on the Subject Lands and continue to produce in accordance with the 139-110 Order as modified by the 139-117 and 139-129 Orders:

<u>Well</u>	<u>Location (Producing Lateral)</u>	<u>Date of First Production</u>
Ranch 15-10-3-3-2W	Sections 3 and 10 of T3S, R2W	2/23/2015
Ute Tribal 14-10-3-3-2W	Sections 3 and 10 of T3S, R2W	2/23/2015
Ute Tribal 13-10-3-3-2W	Sections 3 and 10 of T3S, R2W	2/24/2015
Perank 13-10-3-3-3WH	Sections 3 and 10 of T3S, R3W	5/11/2014
Marie 15-22-15-3-3W-UW	Sections 15 and 22 of T3S, R3W	9/5/2014

In accordance with the 139-110 Order, the Pilot Results were provided to the Board on December 23, 2014 under claim of confidentiality pursuant to GRAMA.

(iii) **139-123 Order.** Pursuant to the 139-123 Order, the Board additionally authorized a further delineation of the Upper Wasatch Pilots by establishing additional 1280-acre (or substantial equivalent) special drilling units for the production of oil, gas and associated hydrocarbons from the Upper Wasatch Interval (defined with the UW Definition), comprised of Sections 6 and 7, T3S, R1W, Sections 5 and 8, Sections 6 and 7, and Sections 28 and 33, T3S, R2W, and Sections 13 and 24, and Sections 14 and 23, T3S, R3W, USM, respectively, among other lands, and authorized the drilling of up to eight SXL Wells thereon, the productive intervals of which could be no closer than 330 feet to the north and south, and 660 feet to the east and west, special drilling unit boundaries, no closer than 1,320 feet to an existing vertical or directionally drilled well producing from the Upper Wasatch Interval, and no closer than 660 feet laterally when closer than 200 feet vertically to another horizontal lateral within the same special drilling unit without obtaining an exception location approval. With respect to stacked laterals, there is no inter-well setback distance laterally required provided the laterals are stacked at least 200 feet or greater vertically. In addition, no other wells are to produce from the Upper Wasatch Interval without prior Board authorization.

No SXL Wells have yet been drilled in accordance with the 139-123 Order.

c) **Bar F Interval (139-120 Order).** Pursuant to the Board's Order entered on August 27, 2014 in Cause No. 139-120 (the "139-120 Order"), the Board authorized, on a

pilot basis, the establishment of 1280-acre (or substantial equivalent) special drilling units for the production of oil, gas and associated hydrocarbons from portions of the Lower Black Shales and Castle Peak Interval, referred to as the “Bar F” Interval and defined as follows:

the interval from the top of the Lower Black Shale to the top of the Uteland Butte, which is defined as the stratigraphic equivalent of the interval from 8546’ to 8955’ MD as identified on the Spectral Density Dual Spaced Neutron Dual Laterolog run on November 6, 2010 in the Dart 1-12-3-2 Well, located 1510’ FNL and 1342’ FWL of Sec. 12, T3S, R2W, U.S.M.,

comprised of Sections 7 and 18, Sections 10 and 15, and Sections 12 and 13, T3S, R2W, USM, respectively, and authorized the drilling of one SXL Well thereon, the productive intervals of which may be no closer than 660 feet to the boundaries of the special drilling unit and no closer than 1,320 feet to an existing well producing in the Bar F Interval, without an exception location approval. The pattern of the special drilling units established under this Order is staggered from those established for the Uteland Butte and Upper Wasatch Pilot and Delineation programs. Newfield was required to report back to the Board within one year of the date of entry of the Order (by August 27, 2015). The exhibits and testimony received into evidence in this Cause are deemed to satisfy the Pilot result reports required under the 139-120 Order.

Pursuant to the 139-120 Order, Newfield has drilled the Powvitch 15-13-12-3-2-WB Well (the “Powvitch Well”), with a surface hole location at 75’ FNL and 2332’ FEL,

Sec. 24, T3S. R2W., commencement of producing intervals at 720' FSL and 1855' FEL, Sec. 13, T3S. R2W., and a terminus at 1127' FNL and 1963' FEL, Sec. 12, T3S. R2W., which was completed as a producing oil well on December 17, 2014 and with first production on December 19, 2014.

9. From the Pilot program results, and as supported by the exhibits and testimony received into evidence in this Cause, it appears:

- a) SXL Wells result in a production uplift of between 1.9-2.7 (2.3 ave.) and cost effectiveness (cost increase of 50%-60%) over HZ Wells, and access additional resources that would not otherwise be recovered;
- b) Average hydraulic fracture orientation (N 54° W) supports a stand-up drilling unit orientation;
- c) Average effective fracture half lengths (200' laterally/148' vertically for the Uteland Butte Interval; 334' laterally/215' vertically for the Upper Wasatch Interval), together with the average hydraulic fracture orientation, confirm 330-foot north and south drilling unit boundary setbacks and 560-foot east and west drilling unit boundary setbacks, and 330-foot lateral and 100-foot vertical setbacks from other horizontal wells should result in efficient but limited communication between wells and allow greater flexibility in locating wells to maximize resource recovery, while still protecting correlative rights;
- d) Consistent and uniform stand-up 1280-acre drilling units will dramatically facilitate flexibility and planning of multi-well pads, production facilities and infrastructure (pipeline) corridors which improves economics and reduces surface disturbance, infrastructure duplication and traffic;
- e) It is difficult, if not impossible, to establish uniform setbacks between SXL Wells and vertical or directionally drilled wells. Yet, both may be required to maximize resource recovery. In particular, vertical or directional wells may still be required to recover resources from intervals above the Bar F

Interval and below the Upper Wasatch Interval. Separating individual production intervals within the previously established pool of the entirety of the Subject Formations could require separate metering and create additional administrative burdens to, or even prevent, commingling of production;

- f) Based on volumetrics reflected in Exhibit “S” admitted into evidence, up to 17 SXL Wells and up to eight vertical/directionally drilled wells or HZ Wells may be necessary to allow flexibility filling in potential gaps and maximize resource recovery from all productive intervals of the Subject Formations; and
- g) Based on the economic analysis reflected in Exhibit “U” admitted into evidence, SXL Wells are economic with rates of return between 20% and 38%. In addition, if and to the extent vertical/directional wells or HZ Wells are required, they too will be economic under certain geologic and reserve recovery circumstances in the respective drilling unit, particularly when considering cost savings of multi-well pads and project economics.

10. Although there are separate productive intervals with some geologic barriers therein, the Subject Formations do constitute one “common source of supply.”

11. Given Findings of Fact Nos. 9 and 10 above, allocation of production from any well located on the 1280-acre drilling unit as of the effective date specified below is fair, just and reasonable under the circumstances and deemed most protective of correlative rights. The benefits of SXL Wells and allocation to all production interest owners on a 1280-acre drilling unit basis far outweigh any detriment or dilution of a production interest on an existing individual well sectional allocation basis.

12. As to the Powvitch Well, since it was drilled under the 139-120 Order on a staggered drilling unit basis, allocating production equally to the drilling units comprised

of Sections 1 and 12 and Sections 13 and 24, respectively, as of the first day of the month following the date of first production of the first SXL Well drilled on either of said drilling units is fair, just and reasonable under the circumstances. Until then, production from said well should continue to be allocated in accordance with the 139-120 Order, and production from any vertical, directionally drilled or HZ Well should continue to be allocated in accordance with the 139-90 Order.

13. To facilitate the establishment of the 1280-acre drilling units and the production allocation outlined in Findings of Fact No. 11 above, Newfield, as the majority “consenting owner” under the Board’s compulsory pooling orders entered on November 28, 2012 in Cause No. 139-96, on January 16, 2013 and June 12, 2013 in Cause No. 139-99, on February 27, 2013 in Cause No. 139-100, on April 9, 2013 in Cause No. 139-102, on June 12, 2013 and August 26, 2013 in Cause No. 139-104, on August 26, 2013 in Cause No. 139-105, on February 28, 2014 in Cause No. 139-114, on April 7, 2014 and June 13, 2014 in Cause No. 139-115 and August 27, 2014 in Cause No. 139-121 (collectively the “Compulsory Pooling Orders”), has stipulated, without objection from the other consenting owners benefitting from the non-consents, to waive any further recoupment from the respective “non-consenting owners” under the respective Compulsory Pooling Orders and to deem full reversion of said non-consenting owners’ interests effective as of the applicable effective date of this Order as set forth below, so as to allow development on a

“go-forward” basis as requested herein. Newfield further has stipulated to filing appropriate Requests for Agency Action within six months of the applicable effective date of the Board’s Order in this Cause as outlined below to modify the Compulsory Pooling Orders to so provide, and to otherwise conform them to the Board’s Order in this Cause. This stipulation is fair, just and reasonable under the circumstances and protective of correlative rights.

14. In Newfield’s Central Basin experience, Federal, Tribal and/or Allotted lands, whether by regulation and guideline or Federal agency practice, will require a Board order establishing the requested drilling units in order to allow conforming communitization agreements to be executed and approved.

15. To prevent premature and unnecessary modification of existing rights to production until such time that the drilling and production from the first SXL Well as a drilling unit established hereunder occurs and mandates such modification, the Board deems the following effective dates of this Order as deemed fair, just and reasonable under the circumstances:

- (a) as to the three drilling units comprised of Sections 2 and 11, Sections 4 and 9 and Sections 6 and 7, Township 3 South, Range 2 West, U.S.M., respectively, and upon which a producing SXL Well already exists, effective as of the first day of the month following entry of the Board’s Order;
- (b) as to any drilling unit where no drilling has occurred, effective as of the date of first production of the first SXL Well drilled;

- (c) as to any drilling unit with an existing vertical/directional drilled well or a HZ Well but no SXL Well yet drilled, effective for the vertical/directional well(s) or HZ Well(s) as of the first of the month following the date of first production of the first SXL Well drilled, and effective for the SXL Well as of its date of first production; and
- (d) as to the Powvitch Well, effective as stated in Findings of Fact No. 12 above.

16. A copy of the Request was mailed, postage prepaid and properly addressed, to all production interest owners within the Subject Lands, to the working interest owners (including unleased owners) in the sections adjacent to the Subject Lands, and to the Utah Division of Forestry, Fire and State Lands (“DFFSL”), Utah School and Institutional Trust Lands Administration (“TLA”), the Bureau of Indian Affairs - Uintah & Ouray Agency (“BIA”), and the Bureau of Land Management (“BLM”), being the supervising governmental agencies having jurisdiction over the State, Federal, Tribal and Allotted minerals. As to parties subject to the Compulsory Pooling Orders, and to all working interest owners (including unleased owners) within the Subject Lands, the mailings were sent certified mail, return receipt requested. The mailings were sent to said parties at their last addresses disclosed by the relevant DFFSL, TLA, BIA, BLM and Duchesne County realty records and/or Newfield’s internal land records.

17. Notice of the filing of the Request and of the hearing thereon was duly published in the Uintah Basin Standard and Vernal Express on June 2, 2015 and in the Salt Lake Tribune and the Deseret Morning News on June 7, 2015.

18. The vote of the Board Members present and participating in the hearing on this Cause was unanimous (6-0) in favor of granting the Request.

CONCLUSIONS OF LAW

1. Due and regular notice of the time, place and purpose of the hearing was properly given to all parties whose legally protected interests are affected by the Request in the form and manner as required by law and the rules and regulations of the Board and Division.

2. The Board has jurisdiction over all matters covered by the Request and all interested parties therein, and has the power and authority to render the order herein set forth pursuant to Utah Code Ann. §§40-6-5(3)(b) and 40-6-6.

3. The Subject Formations as underlying the Subject Lands constitutes a “common source of supply” as that phrase is defined in the Utah Code Ann. § 40-6-2(19).

4. Up to 17 SXL Wells and up to eight vertical/directional wells or HZ Wells may be required to efficiently and economically drain each 1280-acre (or substantial equivalent) drilling unit and to prevent waste (by leaving resources in the ground).

5. Creation of the 1280-acre (or substantial equivalent) stand-up drilling units for the Subject Formations with the provisos outlined below is fair, reasonable and justified under the circumstances.

6. Correlative rights will be protected by the virtue of the setbacks and modification of the Compulsory Pooling Orders outlined below.

7. The relief granted hereby will result in consistent and orderly development and the greatest recovery of oil, gas and associated hydrocarbons from the Subject Formations and underlying the Subject Lands, prevent waste and adequately protect the correlative rights of all affected parties.

8. Newfield has sustained its burden of proof, demonstrated good cause, and satisfied all legal requirements for granting of the Request.

ORDER

Based upon the Request, testimony and evidence submitted, and the findings of fact and conclusions of law stated above, the Board hereby orders:

1. The Request in this Cause is granted.
2. The 139-90, 139-98, 139-103 and 139-123 Orders insofar as they pertain to the Subject Lands only are vacated.
3. The 131-51, 139-109, 139-110, 139-113, 139-117, 139-120 and 139-129 Orders are vacated in their entirety.
4. Instead, stand-up (vertical) 1280-acre (or substantial equivalent) drilling units for the production of oil, gas and associated hydrocarbons from the Subject Formations are established as follows:

Township 3 South, Ranges 1 and 2 West, USM

Sections 1 and 12
Sections 2 and 11
Sections 3 and 10
Sections 4 and 9
Sections 5 and 8
Sections 6 and 7
Sections 13 and 24
Sections 14 and 23
Sections 15 and 22
Sections 16 and 21
Sections 17 and 20
Sections 18 and 19
Sections 25 and 36
Sections 26 and 35
Sections 27 and 34
Sections 28 and 33
Sections 29 and 32
Sections 30 and 31

Township 3 South, Range 3 West, USM

Sections 1 and 12
Sections 2 and 11
Sections 3 and 10
Sections 13 and 24
Sections 14 and 23
Sections 15 and 22
Sections 25 and 36
Sections 26 and 35
Sections 27 and 34

5. Up to 17 SXL Wells to be drilled and produce on each such drilling unit so established, with no more than eight SXL Wells in any one producing interval within the

Subject Formations (*e.g.*, the “Uteland Butte,” “Bar F” or “Upper Wasatch” intervals), are authorized.

6. No producing interval of an authorized SXL Well may be located closer than 330 feet to the north and south, and 560 feet to the east and west, boundaries of each drilling unit so established, and no closer than 330 feet laterally to another horizontal well within the same drilling unit, without obtaining an exception location approval in accordance with Utah Admin. Code Rule R649-3-3. With respect to stacked SXL Wells within the drilling unit, there shall be no inter-well setback distance laterally required provided the stacked horizontal laterals are located at least 100 feet or greater apart in vertical distance.

7. The surface location of any authorized SXL Well not only may be located anywhere on the drilling unit, but may also be located off the drilling unit so established presuming proper surface and sub-surface authorization for such a location has been obtained from the owners and the well will be cased and cemented to the 330-ft. setback as set forth in (6) above, both to be evidenced and satisfied by a self-certification to such effect executed by the Operator of said drilling unit and filed with the Division and the other setbacks for the laterals set forth in (6) above are maintained.

8. As to the Powvitch Well, production should be allocated 50% to the drilling unit comprised of Sections 1 and 12, and 50% to the drilling unit comprised of Sections 13

and 24, T3S, R2W, USM, effective as of the first of the month following the date of first production of the first additional SXL Well drilled upon either of the two said drilling units.

9. Within six months of the applicable effective date of this Order as outlined in Findings of Fact No. 15 above and Order No. 12 below, Newfield will file additional Requests for Agency Action modifying the Compulsory Pooling Orders to waive any outstanding risk assessment award (non-consent penalty) relating to any well on the Subject Lands and declare full reversion of the interests to the non-consenting owners identified therein, and to otherwise fully conform to the Board's Order entered in this Cause.

10. Additionally, up to eight vertical/directional wells or HZ Wells, or a combination thereof, may also be drilled and produce on each drilling unit so established with no inter-well setbacks from other wells within the same drilling unit, but providing no vertical or directionally drilled well may have producing intervals closer than 660 feet from a drilling unit boundary, and providing any short lateral horizontal well may not have producing intervals closer than 330 feet from the north and south boundaries, and 560 feet from the east and west boundaries, of the drilling unit, without an exception location approval in accordance with Utah Admin. Code Rule R649-3-3.

11. The surface location of any authorized HZ Well not only may be located anywhere on the drilling unit, but may also be located off the drilling unit so established

presuming proper surface and sub-surface authorization for such a location has been obtained from the owners and the well will be cased and cemented to the 330-ft. setback as set forth in (10) above, both to be evidenced and satisfied by a self-certification to such effect executed by the Operator of said drilling unit and filed with the Division, and the other setbacks for the laterals set forth in (10) above are maintained.

12. This Order shall become effective as set forth in Findings of Fact No. 15 above.

13. Pursuant to Utah Admin. Code Rules R641 and Utah Code Ann. §63G-4-204 to 208, the Board has considered and decided this matter as a formal adjudication.

14. This Order is based exclusively on evidence of record in the adjudicative proceeding or on facts officially noted, and constitutes the signed written order stating the Board's decision and the reasons for the decision, all as required by the Administrative Procedures Act, Utah Code Ann. §63G-4-208 and Utah Administrative Code Rule R641-109.

15. Notice re: Right to Seek Judicial Review by the Utah Supreme Court or to Request Board Reconsideration: As required by Utah Code Ann. §63G-4-208(e) - (g), the Board hereby notifies all parties in interest that they have the right to seek judicial review of this final Board Order in this formal adjudication by filing a timely appeal with the Utah Supreme Court within 30 days after the date that this Order issued. Utah Code Ann.

§§63G-4-401(3)(a) and 403. As an alternative to seeking immediate judicial review, and not as a prerequisite to seeking judicial review, the Board also hereby notifies parties that they may elect to request that the Board reconsider this Order, which constitutes a final agency action of the Board. Utah Code Ann. §63G-4-302, entitled, “Agency Review - Reconsideration,” states:

(1)(a) Within 20 days after the date that an order is issued for which review by the agency or by a superior agency under Section 63G-4-301 is unavailable, and if the order would otherwise constitute final agency action, any party may file a written request for reconsideration with the agency, stating the specific grounds upon which relief is requested.

(b) Unless otherwise provided by statute, the filing of the request is not a prerequisite for seeking judicial review of the order.

(2) The request for reconsideration shall be filed with the agency and one copy shall be sent by mail to each party by the person making the request.

(3)(a) The agency head, or a person designated for that purpose, shall issue a written order granting the request or denying the request.

(b) If the agency head or the person designated for that purpose does not issue an order within 20 days after the filing of the request, the request for reconsideration shall be considered to be denied.

Id. The Board also hereby notifies the parties that Utah Admin. Code Rule R641-110-100, which is part of a group of Board rules entitled, “Rehearing and Modification of Existing Orders,” states:

Any person affected by a final order or decision of the Board may file a petition for rehearing. Unless otherwise provided, a petition for rehearing must be filed no later than the 10th day of the month following the date of

signing of the final order or decision for which the rehearing is sought. A copy of such petition will be served on each other party to the proceeding no later than the 15th day of the month.

Id. See Utah Admin. Code Rule R641-110-200 for the required contents of a petition for Rehearing. If there is any conflict between the deadline in Utah Code Ann. §63G-4-302 and the deadline in Utah Admin. Code Rule R641-110-100 for moving to rehear this matter, the Board hereby rules that the later of the two deadlines shall be available to any party moving to rehear this matter. If the Board later denies a timely petition for rehearing, the party may still seek judicial review of the Order by perfecting a timely appeal with the Utah Supreme Court within 30 days thereafter.

The Board retains continuing jurisdiction over all the parties and over the subject matter of this cause, except to the extent said jurisdiction may be divested by the filing of a timely appeal to seek judicial review of this order by the Utah Supreme Court.

For all purposes, the Chairman's signature on a faxed copy of this Order shall be deemed the equivalent of a signed original.

DATED this 21st day of July, 2015, but effective for all purposes as of the dates set forth in Findings of Fact No. 15 and Order No. 12 above.

**STATE OF UTAH
BOARD OF OIL, GAS AND MINING**
